## Education And Training

### **Accelerated software engineering program:**

#### **Hackbright Academy**

Dallas, TX

## Projects

### **Tasty Tracks**

Tasty Tracks is a health and nutrition app crafted with React, JavaScript, HTML, CSS, NodeJS, Express, Bcrypt, JWT, and SQL. It offers a macro calculator, intuitive meal planner, and recipe repository. Features include a self-contained seed file, ensuring independence from external APIs. Experience a manually calculated macro calculator, a FAQ for clarity, and dynamic meal planning. The Recipe page allows personalized recipe management. Tasty Tracks is your all-in-one solution for personalized nutrition, promising a delightful user experience.

### **Mama's Cookin'**

A meal delivery service app using JavaScript, HTML, CSS, NodeJS, Express, Bcrypt and Session. The app includes essential features such as a Cart system, user-friendly Search and filters, and seamless User log in and Registration functionalities.

# Katryna Yaworski

## Summary

I'm a passionate software engineer in Aubrey, Texas, skilled in full-stack development and dedicated to transforming ideas into dynamic digital solutions. I accelerated my tech journey through Hackbright Academy's intensive Software Engineering bootcamp in Dallas, focusing on JavaScript, HTML, CSS, and REACT. In that collaborative environment, I excelled in pair-programming and project work, including database building, testing, and API utilization.

My background as a Business Analyst enhances my strategic thinking and problem-solving. With experience in mapping processes, integrating products, and risk management, I offer a well-rounded perspective. As a former Store Manager, I've showcased leadership, optimizing operations, driving sales, and delivering exceptional customer service. This diverse background shapes me into a pressure-resilient problem solver committed to excellence.

## Experience

### **Gofer-Motors – Lead Web Developer**

Dallas, TX

11/2023 - Present
