## Education And Training

### **Accelerated software engineering program:**

#### **Hackbright Academy**

Dallas, TX

## Projects

### **Mama's Cookin'**

I designed and built a meal delivery service app using JavaScript, HTML, CSS, NodeJS, Express, Bcrypt and Session. The app includes essential features such as a Cart system, user-friendly Search and filters, and seamless User log in and Registration functionalities.

### **To do list**

I crafted a dynamic to-do list application using JavaScript, HTML, CSS, NODE JS, Express, and a SQL database, incorporating REST requests for seamless addition and removal of list items.

## Technologies

- JavaScript
- CSS
- HTML
- SQL
- NODE JS
- EXPRESS
- REACT

## Skills

- VERSION CONTROL & COLLABORATION
- PROBLEM SOLVING & ANALYSIS
- EFFECTIVE COMMUNICATION
- ADAPTABILITY

# Katryna Yaworski

## Summary

I'm a passionate software engineer in Aubrey, Texas, skilled in full-stack development and dedicated to transforming ideas into dynamic digital solutions. I accelerated my tech journey through Hackbright Academy's intensive Software Engineering bootcamp in Dallas, focusing on JavaScript, HTML, CSS, and more. In that collaborative environment, I excelled in pair-programming and project work, including database building, testing, and API utilization.

My background as a Business Analyst enhances my strategic thinking and problem-solving. With experience in mapping processes, integrating products, and risk management, I offer a well-rounded perspective. As a former Store Manager, I've showcased leadership, optimizing operations, driving sales, and delivering exceptional customer service. This diverse background shapes me into a pressure-resilient problem solver committed to excellence.

## Experience

### **Hackbright Academy - Student Engineer**

Dallas, TX

06/2023 - 10/2023

- Accelerated full stack software engineering program where I developed skills and knowledge across fundamentals of data structures, algorithms, testing, front-end, back-end, and database programming using JavaScript, HTML, and React
- Collaborate on pair-programming assignments with cohort colleagues
- Daily lab projects include building databases, testing, utilizing APIs, creating sessions, etc.

### **Surgical Notes - Business Analyst**

Plano, TX

07/2020 - 06/2023

- Mapped current business and operational processes and recommended areas for improvement
- Integrated new products and entities into business structure
- Developed short-term goals and long-term strategic plans to improve risk control and mitigation
- Researched and compiled tailored monthly analytics and reports for senior management
- Built and harmonized operations reports for team leaders, senior managers and executives, supervising automation of reports and data sources to eliminate errors
- Built relationships and influenced and motivated employees to drive operational improvements.

**Designer Shoe Warehouse - Store Manager**

*Hurst, TX*

*02/2018 - 07/2020*

- Developed new reports and delegated tasks to team members.
- Successfully interpreted data in order to draw conclusions for managerial action and strategy.
- Worked with the corporate team to establish a new freight process for the company, minimizing cost.
- Managed the planning and development of design and procedures for metrics reports.
- Presented findings and data to the team to improve strategies and operations.

**Off Broadway Shoe Warehouse - Store Manager**

*Grapevine, TX*

*10/2012 - 02/2018*

- Drove a 20% sales increase for the Grapevine location by implementing optimized work processes and addressing ineffective work habits.
- Collaborated with the district manager to recruit, hire, and train personnel for new store openings across the region.
- Awarded first place in customer service for 2015 and 2017, reflecting dedication to delivering exceptional customer experiences.
- Maintained an average of 98% across all mystery shop evaluations, underscoring commitment to excellence.
- Achieved top customer loyalty ratings within the region, reflecting a deep understanding of customer preferences and needs.
